

First 90 Days — Notary Launch Checklist

From commission to your first 10 signings.

Work top to bottom. Check a box as you finish each step — and set up **Signing Agent HQ** early so your income, miles and taxes track themselves from day one.

Week 1 — Get legally set up

- ☐ Apply for your notary commission with your state (pass the exam if required).
- ☐ Order your notary stamp and a bonded journal.
- ☐ Buy Errors & Omissions (E&O) insurance — \$25k–\$100k coverage is typical.
- ☐ Complete the NNA background screening.
- ☐ Separate your money: a dedicated business account or payment method.
- ☐ Set up Signing Agent HQ and enter this year's IRS standard mileage rate in Settings.

Weeks 2–4 — Become a loan signing agent

- ☐ Take a signing agent certification course (e.g. NNA or Loan Signing System).
- ☐ Pass the signing agent exam and certified background check.
- ☐ Get a dual-tray laser printer that handles letter *and* legal paper.
- ☐ Create profiles on the signing databases: Snapdocs, SigningOrder, BNC, etc.
- ☐ Set your service area, availability, and base fees per appointment type.
- ☐ Add your first title/escrow companies to the Companies tab.
- ☐ Order business cards and set up a free Google Business profile.

Months 2–3 — Land your first 10 signings

- ☐ Apply to 15–20 signing services and title companies.
- ☐ Accept your first signings — log each one in the Signing Log as you go.
- ☐ Record every business mile the same day in the Mileage Log.
- ☐ Ask every happy client and company for a review or star rating.
- ☐ Follow up weekly with the companies that pay best and fastest.
- ☐ Check your Dashboard: net profit per job — stop accepting the money-losers.

Set aside taxes and reconcile your Tax Summary monthly, not in April.

This is an organizer and general guidance, not legal or tax advice. Requirements vary by state — confirm yours with the appropriate authority.

Run all of this from one place. Signing Agent HQ turns this checklist into a working business: signing CRM, net profit per job, IRS mileage log, invoices, and a one-click Schedule C tax summary. → Get it at founder price **\$19**.
